

Huntsville Pickleball Club

Policies and Rules

As of March 9, 2022

The purpose of the Huntsville Pickleball Club is to provide members a fun, recreational and competitive social activity; establish policies for the safe and equitable use of any equipment or facilities owned or utilized; promote and encourage participation in the programs and activities of the Huntsville Pickleball Club; and promote and develop Pickleball in Huntsville and surrounding areas. To this end, the following policies and rules have been established.

1. USAPickleball and International Federation of Pickleball (IFP) Policies and Rules will be the foundation of the Huntsville Pickleball Club's on court play.
2. All of our playing locations have a supply of paddles that can be used by new players who have recently completed our training class and who are in the process of purchasing their own paddles. We welcome participants who know how to play pickleball to join our club's open play and drills. Patrons who show up requesting an opportunity to learn to play pickleball will be referred to our website, pickleball-huntsville.com, to sign up for our free new beginners training class. In agreement with the Huntsville Recreation Department, our club will ensure patrons learn techniques, rules and regulations of Pickleball by continuing to provide formal training classes for beginners and Recreation Staff so they have sufficient competency to participate in open play and drills. Non-club members who frequently participate in our club's open play and drills will be encouraged to join our club by paying the annual membership fee which is determined each year by the club's executive committee. Membership dues help to pay for things such as equipment, supplies, awards, and social events.
3. Our regular system for equitable play is to line up paddles. To signify your desire to play, you would place your paddle to the far right (overlapping those paddles in line) of the existing group of paddles. The first four paddles in the line (left to right) represent the next four people playing on the designated court. At times, other systems and rotations may be used to facilitate play. Examples of other systems:
 - a. Winners of a game stay for the next game, but change partners with the next two players in line unless bundling rackets (see 3c). A player cannot play more than two successive games unless there are no players waiting.
 - b. Paddles are lined up with the winners of each game going into one line and the losers going into another. The first four players alternately from the winners line and the losers line play the next game.
 - c. Groups of two players can 'bundle' their rackets (create a group that will play together). They must move backward, as required, in the selected rotation to ensure they fall into the next grouping of players scheduled to play.
4. The following "Levels of Play" may be used at times for court designation, available playing times and locations, tournament brackets, etc.:

Competitive (A) Semi-competitive (B) Recreational (C) Beginner/Novice (D)
5. If a person chooses to leave the court for any reason while playing a game, they must leave the court for the remainder of the game. If they wish to play another game, they will put their paddle at the "end of the line". The player leaving the game will be

replaced by the next person in line wanting to play. At the conclusion of that game, the person "substituting" will be allowed to place their paddle back where it was in line (or at the front of the line if their previous position has already passed).

6. If a player is not "readily available" when their turn comes up, (e.g., left the playing area) their paddle will be skipped and will remain at the front of the line. However, if a player is available to play, they may NOT ask that their paddle be skipped or move their paddle themselves. If a player is available to play but chooses not to take their turn, their paddle will be moved to the end of the paddle line.
7. Line calls are to be made by players on the court in harmony with Section 6 of the IFP Rulebook. Non-Volley Zone Faults (IFP Section 9) and Service Foot Faults (IFP Section 4.D.) may be called by designated persons if available. A team may request that line calls be made by designated persons if available.
8. Member's cannot currently reserve court time through the club. Friends can practice outdoors any time. Check club website for current outdoor places to play. For those who do reserve court time, the agreement is between the City of Huntsville and the group who reserves the court time. Huntsville Pickleball Club has no involvement.
9. All players are expected to help set up and take down nets at all playing locations and to pick up stray pickleballs at the end of their game.
10. Paddle/Player rotation will follow the club guidelines that are on the website and in the binders at all gyms. The Site Representative (member of the Club representing that site) is the final authority for the type of game being played and the rotational system in use at any time. Based upon waiting time for courts, the site representative may alter the scoring in use for games, e.g., play to nine points and win by one or two; play to eleven points and win by one or two; play to fifteen points and win by two; or use scoring where every point counts instead of just counting the points made by the server.
11. According to Huntsville Recreation Department, you must be 18 or older to play without a guardian present prior to 3:00 PM Monday thru Friday and 16 or older to play without a guardian present after 3:00 PM Monday thru Friday and on the weekends. This rule also applies to homeschool youth.
